Kilimanjaro Airport

Arrive at Kilimanjaro Airport. Our guide will meet you at the Arrivals Lounge and transfer you to a lovely lodge in the mountains where you spend the night.

WEDNESDAY, 7 AUGUST 2013

Arusha National Park

We start our safari in the Arusha National Park with its spectacular scenery, greenery, and unusual forest wildlife, hoping for great views of Mount Kilimanjaro and its twin volcano, Mount Meru. We then drive through the great African Rift Valley to Lake Manyara National Park, where time permitting, we enjoy an exciting late afternoon game drive, searching for the many animals that live along the massive lakeshore.

THURSDAY, 8 AUGUST 2013

Ngorongoro Crater

Drive up the magnificent Ngorongoro escarpment to the Ngorongoro Highlands. Descend rapidly into the famous Ngorongoro crater, home to one of the densest concentrations of wildlife in the world. Spend most of the day searching for the many animals that make this unbroken caldera their home. Drive down the great escarpment onto the great plains of Ngorongoro, where our Migrations tracking begins!

FRIDAY, 9 AUGUST 2013

Ngorongoro Crater

The Ngorongoro Conservation Area is the Southern End of the Serengeti Eco system, and although the migration herds have long left this area by August, it is home to many resident species including wildebeest, zebra, gazelles, and predators such as lion, cheetah, and leopard. As we move northwards in search of the herds, we look out for some of these resident animals.

The Seronera Region of the central Serengeti is home to one of the greatest concentrations of lion in the world!

We arrive at our lodge in the "Land of the Lion King" on time to prepare for Shabbos.

SATURDAY, 10 AUGUST 2013

Ngorongoro Mountains

Enjoy a wonderful shabbos at the magnificent Victorian Manor House, set on a fruit farm high up in the Ngorongoro Highlands, with spectacular views and scenery as well as great walking trails.

SUNDAY, 11 AUGUST 2013

Central Serengeti

Drive through the spectacular Ngorongoro Highlands and down the dramatic escarpment to the great unending plains of the Serengeti, where the hunt for the great migration begins. As we pass through the Central Serengeti, we look out for the large lion prides and rare cheetah that this area is famous for.

The Serengeti is considered the world's greatest safari region, and we look forward to enjoying "The greatest wildlife show on Earth!"

MONDAY, 12 AUGUST 2013

Northern Serengeti

Today we explore the Northern Serengeti where the great migrations often congregate at this time of the year, hoping to spot large migrating herds of wildebeest and zebra, and some of the accompanying predators. Every game-drive is different, and nothing is predictable, except the excitement of the chase, and the incredible feeling when a sighting is experienced!

TUESDAY, 13 AUGUST 2013

Masai Mara, Kenya

Drive to Kenya's famous Masai Mara National Park, the Northern extension of the Serengeti ecosystem, where you spend the afternoon admiring the magnificent vistas of the Masai Mara River, the only crossing for the hundreds of thousands of Wildebeest migrating to Kenya in July/August in search of grazing.

The park is home to a huge variety of local game, including antelope, zebra, giraffe, and, of course lions, hyenas and the rare and elusive cheetah. Should we be lucky enough to be there at the right time, we might just experience the thrill of a river crossing!

WEDNESDAY, 14 AUGUST 2013

Masai Mara

As dawn breaks over the Masai Mara, a gentle tap on your door will wake you to the delights of yet another awesome day in the company of your guide spending time in the midst of the massed herds.

Head off in search of the wildlife once again in the late afternoon.

THURSDAY, 15 AUGUST 2013

Masai Mara / Nairobi

This morning is our last chance to search for any of the species we have not yet seen, and for a possible last-minute river-crossing on the Mara Waterfront.

After lunch, drive or fly (optional extra) to Nairobi in time for your international flight back home - with thoughts of this thrilling adventure which will remain in your memory forever.

**The AKS team looks forward to
